# Testing

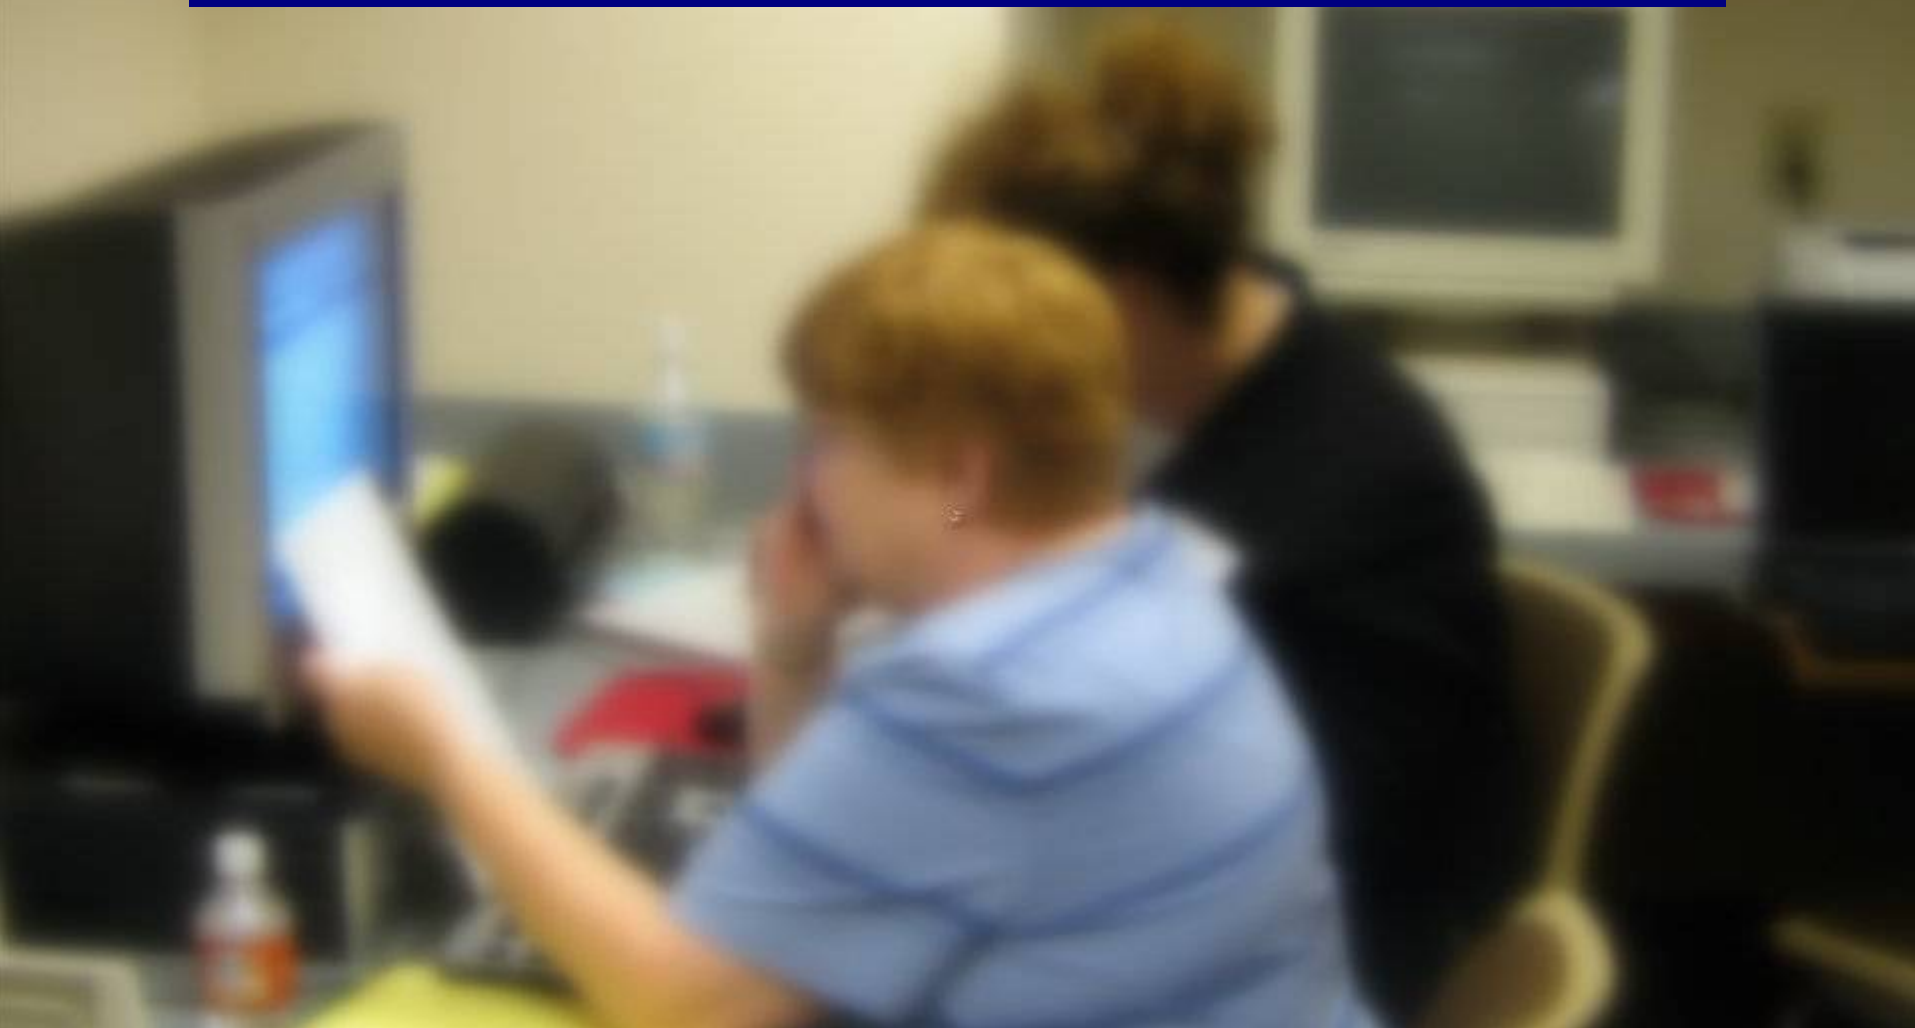

- 
- Novice Family Historians
  - Same Family History Problem
  - 3 Test Types

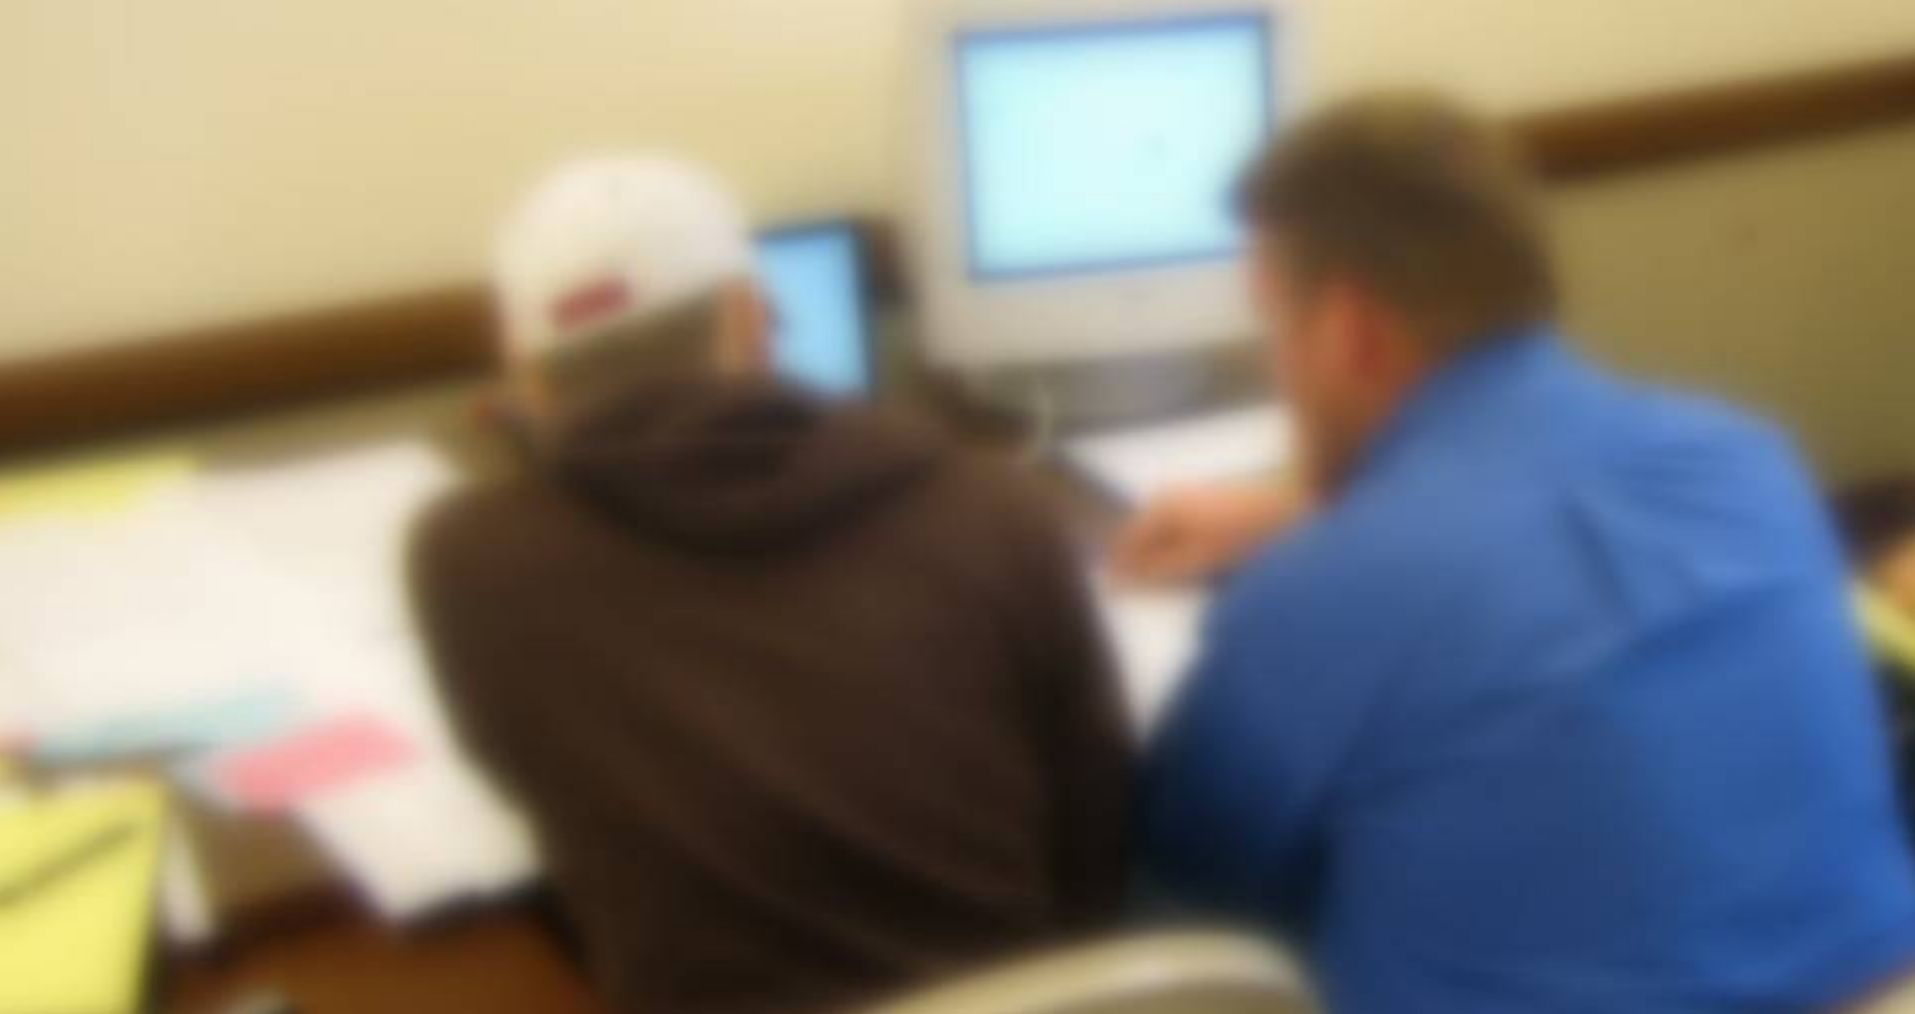

# Family History Center

# Internet

# Family Finder Prototype

# Results

# Results

- The prototype was successful at helping novices get started.
- Patrons had more success with the prototype than with the Family History center or Internet tests.

# Observations

- The Question Engine helped people focus and know what to look for.
- Some patrons felt constrained by the Question Engine as they gained confidence.
- Giving the patrons instructions just when they needed them was the most effective way to make progress in both the prototype and Family History Center tests.
- Patrons need a scratch pad to capture, store and share working data.

# Comments

- “It makes me want to start my own family history.”
- “I don’t know where to start, and this seems to make it easy to get started.”
- “I think I could have figured [the prototype] out on my own at home.”

# Comments

- “Makes me feel like I’ve gone back in time.”
- “It was fun because I was finding things.”
- “I really like the questions on Learn More.”

# Conclusion

- The Family Finder Prototype really helped novices to have a good first experience.
- There is still a lot of work to do.
